

## Index of Key Words

3-dimensions	
Vectors.....	56
Addition Angle Formulae.....	46
Altitude.....	129
Amplitude.....	44
Angle	
between Vectors.....	61
converging radians to degrees.....	12
Radians and Degrees.....	11
Vectors.....	61
Antiderivatives.....	111, 118
Arbitrary constant.....	<i>See</i> Constant of integration
Area	
beneath $x$ axis.....	154
between curves.....	155
under curve.....	155
Base (logarithm).....	25
Calculus.....	<i>See</i> Differentiation and Integration
Centroid.....	128
Chain Rule.....	108
Chord.....	135
Circle.....	133
Chord.....	135
Equation.....	133
Equation without brackets.....	134
Tangent.....	137
Circumcentre.....	127
Coefficient.....	66
Completing the Square.....	41
Components.....	56
Composite Functions.....	23
Compound Angle Formulae ..	<i>See</i> Addition Angle Formula
Concurrent.....	127, 128, 129
Constant	
of integration.....	111
Coordinates	
Midpoint.....	122
$\cos(A+B)$ ..	<i>See</i> Compound Angle Formula
$\cos 2A$ .....	<i>See</i> Double Angle Formula
Cubics	
Dividing.....	67
Factorising.....	68
Graph.....	71
Solving.....	69, 72
Decreasing.....	100
Definite integral.....	113
Degree	
converting to radians.....	12
of a polynomial.....	66
Derivative.....	94, 98
Derived Function.....	94
sketching.....	40
Differentiation.....	96
$ax^n$ .....	96
brackets.....	98
fractions.....	98
fractions in powers.....	97
numbers (constants).....	97
sums of terms.....	96
surds.....	98
Differential Equations.....	161
Differentiation.....	94, 148
brackets.....	108
chain rule.....	108
second derivative.....	104
sin and cos.....	106
$\sin^2x$ and $\cos^2x$ .....	110
square roots.....	109
Directed Line Segment.....	<i>See</i> vector
Discriminant.....	73
and intersection of lines and circles.....	135
Distance Formula.....	57, 121
in 2-dimensions.....	121
in 3-dimensions.....	57
Distinct roots.....	73
Division	
Polynomials.....	67
Synthetic.....	66
Domain.....	22
from a graph.....	22
Restrictions on.....	22
Dot Product.....	61
Perpendicular.....	64
Double Angle Formulae.....	48
Backwards.....	49
$e$ (number).....	26
Empty set.....	10
Equal roots.....	<i>See</i> Repeated roots
Equations	
Cubic.....	69, 72
decrease (exponential).....	30
increase (exponential).....	30
logarithms.....	28
powers.....	29
sin/cos/tan.....	<i>See</i> Trig Equations
taking logs of both sides.....	29
Exact Value Triangles.....	11
Exact Values of sin, cos and tan	
from a diagram.....	48
in degrees.....	11
in radians.....	6, 43
Experimental Graphs.....	38
$y = ab^x$ .....	39
$y = kx^n$ .....	38
Explaining an Answer.....	9
Exponentials	
exponential growth.....	27
Graph.....	25
$f(g(x))$ .....	23

$f(x)$ .....	13	$f(x + a)$ .....	32
$f^{-1}(x)$ .....	24	$f(-x)$ .....	33
Factor and Remainder Theorem.....	68	$-f(x)$ .....	33
Factorising		$f(x) + a$ .....	32
Cubics.....	68, 72	Parabola.....	18
Quadratic.....	15	Related Functions.....	32, 36
Solving a cubic equation.....	69, 72	sin graphs.....	46, 53
Falling point of inflection.....	<i>See</i> Point of inflection	stationary points.....	105
Formulae		Trigonometry.....	46, 53
Angle between Vectors.....	61	Graphs of sin, cos and tan.....	11
Area and Volume.....	6	Greek Letters.....	10
Area between curves.....	155	Horizontal point of inflection .	<i>See</i> Point of inflection
Basis vectors.....	56	Identities (Trigonometry).....	43
Circle (with brackets).....	133	Increasing.....	100
Circle (without brackets).....	134	Indefinite integral.....	111
Compound Angle.....	47	Inequality	
Discriminant.....	73	Quadratic.....	77
Distance formula.....	121	Inflection.....	<i>See</i> Point of inflection
Distance formula (3d).....	57	Initial Conditions.....	161
Dot Product.....	61	Integers.....	10
Double Angle.....	48	Integral	
Integrals.....	111	definite.....	113
Laws of logarithms.....	27	indefinite.....	111
Limit.....	144	Integration.....	111, 148, 153
Logarithms.....	26	Area between curves.....	155
Magnitude.....	56	Area under curve.....	154, 155
Midpoint formula.....	122	$ax^n$ .....	111
Quadratic Formula.....	73	brackets.....	114
Scalar Product.....	61	by substitution.....	115
Trigonometry.....	47	Fractional power.....	112
Vectors (basic).....	56	more difficult integrals as the opposite of	
Velocity.....	152	differentiation.....	118
Wave Function.....	51	sin and cos.....	112
Fractions		Intersection.....	<i>See</i> Point(s) of Intersection
in Powers.....	20	Inverse	
Simplifying (numerical).....	9	Linear Functions.....	25
Frequency.....	44	Inverse Functions.....	24
Function Notation.....	13, 94	Irrational	
Functions		roots.....	74
Composite.....	23	Kite.....	124
Inverse.....	24	Laws	
Related.....	32	of logarithms.....	27
General solution	<i>See</i> Differential Equations	Leibniz's notation.....	94
Giving a Reason.....	9	Limit (Definite Integral).....	113, 153
Gradient.....	14, 120	Limit (Recurrence Relations).....	143
Graph		Condition to exist.....	144
Experimental.....	38	Formula.....	144
Exponential.....	25, 36	Linear Recurrence Relation	<i>See</i> Recurrence Relations
Logarithmic.....	25, 36	In $x$ .....	<i>See</i> Logarithms
$y = a^x$ .....	25	see Natural Logarithm.....	27
$y = \log_a x$ .....	25	Logarithms	
Graph Sketching		Base.....	25
$af(x)$ .....	34	Experimental Data.....	38
cos graphs.....	46, 53	Graphs.....	25, 38
cubic.....	105	Inverse function.....	24
Derived function.....	40	Laws of logarithms.....	27
$f'(x)$ .....	40		
$f(ax)$ .....	34		

natural.....	27	Polynomials	
Non Calculator.....	24	Degree of.....	66
Straight Line Graphs.....	38	Dividing.....	67
$y = ab^x$ .....	39	Factorising.....	68
$y = kx^n$ .....	38	Remainder.....	67
Logs.....	<i>See</i> Logarithms	Solving.....	72
Magnitude.....	56	Position Vector.....	56
Maximum		Powers	
Stationary point.....	102	Dividing.....	19
Trigonometric Functions.....	45	Fractions.....	20
Median.....	128	Multiplying.....	19
Midpoint.....	60, 122	Negative.....	20
Formula.....	122	Nested.....	19
Minimum		Quadratic Equations	
Stationary point.....	102	Discriminant.....	73
Trigonometric Functions.....	45	inequality.....	77
Natural Logarithm.....	27	Rearranging.....	74, 75
Natural numbers.....	10	Roots.....	73
Nature		Quadratic Formula.....	73
of roots.....	73	Quadratic Functions.....	18
of stationary points.....	101	Completing the Square.....	41
Nature table.....	101	Quadratic Inequality.....	77
Negative Powers.....	20	Quadrilaterals.....	124
Nested powers.....	19	Quartic.....	66
No real roots.....	73	Quotient.....	68
Notation		$\mathbb{Q}$ (symbol).....	10
Differentiation.....	94	Radians.....	11
Function Notation.....	13	converting to degrees.....	12
Integration.....	111	Range.....	22
Null set.....	10	from a graph.....	22
$\mathbb{N}$ (symbol).....	10	sin and cos.....	22
Optimisation.....	149	Trigonometric Functions.....	45
Perimeter Area and Volume.....	150	$y = x^2$ .....	22
Original value.....	30	Rate of change.....	98
unknown (exponential).....	31	Rate of Change.....	<i>See</i> Differentiation
Orthocentre.....	129	Ratio.....	60
Parabola.....	18	Rational	
Equation.....	70	Numbers.....	10
Maximum or Minimum points.....	19	Roots.....	74
Quadratic.....	19	Real	
Parallel.....	123	Numbers.....	10
Particular solution.....	<i>See</i> Differential	Roots.....	73
Equations		Reasoning.....	9
Period.....	44	Recurrence Relations.....	142
Perpendicular.....	123	Limit.....	143
Bisector.....	126	Notation.....	142
Vectors.....	64	Problem Solving.....	146
Point of contact.....	99	Related Functions.....	32, 36
Point of inflection.....	102	Remainder.....	67, 68
Point(s) of Intersection		Remainder Theorem.....	68
circle and straight line.....	135	Repeated roots.....	73
cos and/or sin.....	90	on a graph.....	71
curve and straight line.....	78	Rhombus.....	124
straight Line.....	130	Rising point of inflection.....	<i>See</i> Point of
trig graphs.....	90	inflection	
two circles.....	139	Roots.....	73
two curves.....	78, 156	$\mathbb{R}$ (symbol).....	10

Scalar Product.....	61	Altitude .....	129
Second Derivative .....	104	Lines in triangles.....	126
Sequences .....	142	Median .....	128
Sets .....	10	Perpendicular Bisector .....	126
Empty set.....	10	Trig Equations	
Show that.....	7	Basic.....	82
$\sin(A+B)$ ... <i>See</i> Compound Angle Formula		by Factorising.....	88
$\sin 2A$ .....	<i>See</i> Double Angle Formula	$\cos 2x$ and $\sin x$ or $\cos x$ .....	88
Sketching.....	<i>See</i> Graph Sketching	from a graph.....	90
Square.....	124	Multiple angle.....	86, 88
Starting value.....	30	No Solution .....	84
unknown (exponential).....	31	Phase angle.....	86
Stationary.....	100	Radians.....	82, 87, 89
Stationary Points.....	101	$\sin 2x$ and $\sin x$ or $\cos x$ .....	88
Straight Line.....	14, 120	Squared .....	84
Altitude.....	129	Trigonometric Functions .....	44
Collinear .....	58	Amplitude.....	44
Distance between points .....	121	Equation .....	44
Equation.....	38	Frequency.....	44
from curved graph using logs .....	38	Maximum and Minimum .....	45
Gradient .....	120	Range .....	45
Intersection .....	130	Trigonometric Identities .....	43
Lines in Triangles .....	126	Trigonometry .....	50
Median.....	128	Differentiation.....	92
Midpoint.....	122	Equations.....	82
Parallel.....	123	Exact values .....	6, 43
Perpendicular.....	123	Exact values in degrees .....	11
Perpendicular Bisector.....	126	Maximum and Minimum Values .....	52
Point of Intersection.....	130	Proving a formula.....	48
Triangles.....	126	Solving Equations .....	91
Strategy.....	9	Unit vector .....	57
Strictly decreasing .....	<i>See</i> Decreasing	Units.....	8
Strictly increasing.....	<i>See</i> Increasing	Vectors.....	56
Synthetic Division .....	66	Magnitude .....	56
Taking logs of both sides.....	29	Naming.....	56
Tangent.....	78, 95, 99	Perpendicular .....	64
Equation of .....	99	unit vector .....	57
proving a line is a tangent.....	78	Velocity .....	152
to a circle .....	137	Wave Function.....	50
to a curve .....	78	Differentiation and Integration.....	92
theta ( $\theta$ ) .....	10	Maximum and Minimum Values .....	52
Three dimensions .....	<i>See</i> 3d	Solving Equations .....	91
Triangle		$\mathbb{Z}$ (symbol) .....	10
