

Index of Key Words

Addition Angle Formulae See Compound Angle Formula	Brackets.....102
Altitude.....135	Fractions.....102
Amplitude.....46	Fractions in Powers101
Angle	Numbers (constants).....101
Between Vectors..... 63, 64	Sums of Terms.....100
Converting Radians to Degrees 43	Surds.....102
Gradient.....124	Differential Equations.....166
Radians and Degrees 43	Differentiation 98, 156
Straight Line.....124	Brackets.....113
Antiderivative.....116, 122	Chain Rule113
Arbitrary Constant.....116	Preparing.....99
Area	Second Derivative106, 107
Beneath x-axis.....162	sin and cos.....112
Between Curves.....163	sin ² x and cos ² x.....115
Base (Logarithm)24	Square Roots114
Calculus See Differentiation and Integration	Directed Line Segment..... See vector
CAST diagram50, 87	Discriminant.....80
Centroid.....136	and Intersection of Lines and Circles143
Chain Rule.....113	Distance Formula
Chord.....143	in 2-dimensions126
Circle.....139	in 3-dimensions58
Chord143	Distinct Roots.....80
Equation (with brackets).....139	Division
Equation without Brackets140	Polynomials71
Circumcentre.....134	Domain.....20
Closed Interval.....159	From a Graph20
Coefficient.....69	Restrictions on20
Collinear60	Dot Product.....63
Completing the Square.....40	From a Diagram.....66
Components.....57	Perpendicular67
Composite Functions.....21	Double Angle Formulae49
Compound Angle Formulae47	dy/dx See Differentiation
Concurrent134, 136	e (number)25
Constant of Integration116	Empty Set.....11
$\cos(A+B)$ See Compound Angle Formula	Equal Roots80
$\cos 2A$ See Double Angle Formula	Equations
Cubics	Cubic.....76, 78
Factorising74	Logarithms.....27
Graph70	Powers.....28
Solving.....76, 78	sin/cos/tan See Trig Equations
d^2y/dx^2 See Second Derivative	Taking Logs of Both Sides28
Decreasing.....104	Exact Value Triangles45
Defined (function)20	Exact Values of sin, cos and tan.....45
Definite Integral118, 161	Calculating.....47
Degree	from a diagram.....48
Converting to Radians.....43	in Radians6
of a Polynomial69	Experimental Graphs37
Derivative98, 102	$y = ab^x$38
Derived Function98	$y = kx^n$37
Sketching39	Explaining an Answer.....9
Differentiation.....100	Exponentials
ax^n100	Exponential Growth25
	Graph.....24
	Express in the Form

$a(x + b)^2 + c$	40	$y = kx^n$	37
$k\cos(x \pm a)$	50	$y = \log_a x$	24
$k\sin(x \pm a)$	50	Graph Sketching	
$y = ab^x$	38	$af(x)$	33
$y = kx^n$	37	Cubic	110
$f(g(x))$	21	Derived Function	39
$f(x)$	11	$f'(x)$	39
$f^{-1}(x)$	22	$f(ax)$	33
Factorising		$f(x + a)$	31
Cubics	74	$f(-x)$	32
Quadratic	13	$-f(x)$	32
Solving a Cubic Equation	76, 78	$f(x) + a$	31
Factors	69	Parabola	16
Formulae		Related Functions	31, 35
Angle Between Vectors	63, 64	Stationary Points	110
Area and Volume	6	Graphs of sin, cos and tan	45
Area between curves	163	Greek Letters	11
Basis vectors	57	i, j and k (vectors)	57
Circle (with brackets)	139	Identities (Trigonometry)	56
Circle (without brackets)	140	Increasing	104
Compound Angle	47	Indefinite Integral	116
Discriminant	80	Inequality	
Distance formula	126	Quadratic	83
Distance Formula	58	Inflection	See Point of Inflection
Dot Product	63	Initial Conditions	166
Double Angle	49	Integers	11
Integrals	116	Integral	
Limit	152	Definite	118, 161
$m = \tan \theta$	124	Indefinite	116
Magnitude	57	Integration	116, 161
Midpoint formula	126	Area Between Curves	163
Quadratic Formula	80	Area Under Curve	161
Scalar Product	63	As the Opposite of Differentiation	122
Trigonometry	47	ax^n	116
Vectors (basic)	57	Brackets	120
Wave Function	51	by substitution	120
Fractions		Fractional Power	117
in Powers	18	Preparing	99
Simplifying (Numerical)	8	sin and cos	118
Frequency	46	Intersection	See Point(s) of Intersection
Function Notation	11, 98, 106	Circles	147
Functions		Inverse Functions	22
Composite	21	Graphs	24, 36
Inverse	22	Irrational	
Related	31	roots	80
General Solution	See Differential Equations	Justify	7, 9
Giving a Reason	9	Kite	132
Gradient	12, 124	Laws of Logs	26
Graph		Leibniz's notation	98, 106
Experimental	37	Limit (Definite Integral)	118, 161
Exponential	24, 35	Limit (Recurrence Relations)	151
Inverse Function	24, 36	Condition to exist	152
Logarithmic	24, 35	Formula	152
Related Functions	31	Linear Recurrence Relation	See Recurrence Relations
Trigonometric	46	In x	See Logarithms
$y = ab^x$	38		
$y = a^x$	24		

see Natural Logarithm	25	Perpendicular.....	130
Logarithms		Bisector	132
Base	24	Tangent and Radius.....	142
Experimental Data	37	Vectors	67
Graphs	24, 37	Point of Contact	103
Inverse Function	24	Point of Inflection	107
Laws	26	Point(s) of Intersection	
Natural.....	25	Circle and Straight Line.....	143
Non Calculator	24	cos and/or sin.....	94
Straight Line Graphs	37	Curve and Straight Line	84
$y = ab^x$	38	Straight Line	137
$y = kx^n$	37	trig graphs	94
Logs	See Logarithms	Two Circles	147
Long Term.....	153	Two Curves	163
$m = \tan \theta$	124	Polynomials	
Magnitude	57	Degree of.....	69
Maximum		Factorising.....	74
Optimisation	156	Remainder.....	72
Stationary point	107	Solving	76
Trigonometric Functions.....	47, 53	Position Vector	57
Median	134	Powers	
Method of Steps.....	127	Dividing.....	17
Midpoint.....	126	Fractions.....	18
Minimum		Multiplying	17
Optimisation	156	Negative	18
Trigonometric Functions.....	47, 53	Nested	17
Natural Logarithm	25	Preparing to Differentiate	99
Natural Numbers.....	11	Quadratic Equations	
Nature		Discriminant	80
of Roots.....	80	Inequality	83
of Stationary Points	107	Rearranging	80, 82
Nature Table.....	107	Roots	80
Negative Powers	18	Quadratic Formula.....	80
Nested Powers	17	Quadratic Functions.....	16
No Real Roots.....	80	Completing the Square.....	40
Notation		Quadratic Inequality	83
Differentiation	98	Quadrilaterals	132
Function Notation.....	11	Quartics.....	69
Integration	116	Factorising.....	76
Null Set	11	Solving	76
$\mathbb{N}$ (symbol)	11	$\mathbb{Q}$ (symbol).....	11
Optimisation.....	156	Radians.....	43
Creating a Formula	157	Converting to Degrees.....	43
on a Closed Interval	159	Range	20
Perimeter Area and Volume	157	From a Graph	20
Orthocentre.....	136	sin and cos.....	20, 47
Parabola	16	Trigonometric Functions	47
Equation.....	70	$y = x^2$	20
Maximum or Minimum points.....	17	Rate of Change.....	102
Quadratic	17	Ratio.....	60
Parallel.....	129	Rational	
Particular Solution.....	See Differential Equations	Numbers.....	11
Pathway (vector)	59	Roots	80
Period	46	Real	
		Numbers.....	11
		Roots	80

Recurrence Relations	150	Theta (θ).....	11
Limit	151	Triangle	
Notation.....	150	Altitude.....	135
Problem Solving	154	Lines in Triangles	132
Related Functions.....	31, 35	Median	134
Remainder	72	Perpendicular Bisector	132
Repeated Root.....	71, 80	Trig Equations	
Rhombus	132	Basic	87
Roots	69, 80	by Factorising	92
Equal	80	$\cos 2x$ and $\sin x$ or $\cos x$	92
Nature	80	from a graph.....	94
Repeated.....	71, 80	Multiple Angle	90
Show that.....	74	No Solution.....	89
$\mathbb{R}$ (symbol)	11	Phase Angle.....	89
Scalar Product	63	Radians	87, 90, 94
From a Diagram	66	$\sin 2x$ and $\sin x$ or $\cos x$	92
Perpendicular	67	Squared	91
Second Derivative.....	106, 107	With a Bracket.....	89
Sequences	150	Trigonometric Functions.....	46
Sets	11	Amplitude.....	46
Show that... ..	7	Equation	46
Simultaneous Equations.....	138, 154	Frequency.....	46
$\sin(A+B)$	See Compound Angle Formula	Maximum and Minimum.....	47, 53
$\sin 2A$	See Double Angle Formula	Range.....	47
Stationary Points	107	Trigonometric Identities	56
Straight Line	12, 124	Trigonometry	50
Altitude	135	Differentiation	96
Collinear.....	60	Equations.....	87
Distance between Points	126	Exact Values	6, 45
Equation.....	12, 37, 127	Maximum and Minimum Values	47, 53
From Curved Graph Using Logs	37	Proving a Formula	56
Gradient	124	Solving Equations	95
Intersection.....	137	Trinomial.....	13
Lines in Triangles	132	Undefined (function)	20
Median.....	134	Unit Vector.....	58
Midpoint	126	Units.....	8
Parallel	129	Vectors.....	57
Perpendicular	130	Magnitude.....	57
Perpendicular Bisector.....	132	Naming.....	57
Point of Intersection	137	Pathway.....	59
Triangles	132	Perpendicular	67
Strategy	9	Unit Vector	58
Strictly Decreasing.....	See Decreasing	Wave Function.....	50
Strictly Increasing	See Increasing	Differentiation and Integration	96
Synthetic Division	71	Maximum and Minimum Values	53
Taking Logs of Both Sides	28	Solving Equations	95
Tangent	85, 99, 103	$y = ab^x$	38
Equation of	103, 113	$y = kx^n$	37
Proving a Line is a Tangent	85, 144	y -intercept	
to a Circle.....	142, 144	Cubic.....	110
to a Curve.....	85	$\mathbb{Z}$ (symbol)	11
